### CIVIL OFFICE

60 N Main St  
Coalville, Utah 84017  
435-336-3206 Phone  
435-336-3287 Fax

A multijurisdictional investigation has revealed the overseas shipment and receipt into the Park City community of controlled substances and synthetic controlled substances. The substances were ordered via the "dark web" and mailed into Park City, Utah. This shipment was procured by and involved at least one of the teens involved in the 2016 overseas shipment and receipt into the Park City community of "Pink" or U-47700. While some shipments were intercepted, it is at this time unknown what other substances may have also been received and distributed within our community. These substances are dangerous and of unknown potency and composition.

Parents are urged to talk to their children about the possible presence of these dangerous and deadly substances and be alert to suspicious packages being received in the mail or from shipping services.

If any suspicious packages, packaging, substances or paraphernalia are located please treat them with extreme caution and do not touch them. Contact local law enforcement immediately for disposal.

The Summit County Attorney's Office is screening and filing delinquency charges in the Third District Juvenile Court and will they be pursued in the strongest possible manner. Because such proceedings are confidential by law, the identity of the persons charged will not be released by this office.

Any questions about this release should be directed to Margaret H. Olson, Summit County Attorney, at 435-615-3738 or [molson@summitcounty.org](mailto:molson@summitcounty.org). However, no further information of substance will be released at this time.
