

THE FUTURE OF LEARNING

Update 12-20-18

The Ideal

Key Spaces

This week teachers and principals provided insight on key spaces for learning during a learning leaders forum Dec. 18. The group reviewed innovative spaces and tied them to the guiding principles. Examples of spaces focused on being flexible and adaptable, creative, agile and changeable, and committed to inclusivity.

Quote

"Once we have developed the education specifications of what the ideal is, then we will look at the district's current spaces and see how they can be adapted to meet that ideal."

— Christine Richman, GSBS —
